We Represent Our Selves

We stream our meetings because there are people in NoVaLUG who cannot be physically present. We attend NoVaLUG as individuals because we are Linux and FOSS enthusiasts.

However, this hasn't stopped certain Internet provocateurs (*cough cough Bryan Lunduke cough cough*) from misstating that we represent our employers, governments, religion, etc...

So unless otherwise stated, **we all represent ourselves and nobody else.**

New Comers

Raise your hand if this is your first NoVaLUG meeting.

A large graphic on the left side of the slide. It features a stylized rocket ship in the center, composed of blue and orange geometric shapes. The rocket is set against a dark blue background with a circular grid of dots and lines, resembling a circuit board or a space-themed interface. The words "TECH NEWS" are written in large, bold, blue capital letters at the bottom of the graphic.
