We Represent Our Selves

We stream our meetings because there are people in NoVaLUG who cannot be physically present. We attend NoVaLUG as individuals because we are Linux and FOSS enthusiasts.

However, this hasn't stopped certain Internet provocateurs (*cough cough Bryan Lunduke cough cough*) from misstating that we represent our employers, governments, religion, etc...

So unless otherwise stated, **we all represent ourselves and nobody else.**

A large graphic on the left side of the slide. It features a stylized rocket ship in the center, composed of geometric shapes and glowing with orange and yellow light. The rocket is set against a dark blue background with a circular grid of dots and lines, resembling a circuit board or a data network. The words "TECH NEWS" are written in a bold, blue, sans-serif font below the rocket.
