

NoVaLUG - 16 May 2026

Meeting Logistics

- **YOU MUST SIGN-IN**
 - <https://links.novalug.org/signin>
- Many thanks to Solution Street for hosting us and supplying bagels and coffee.
- This meeting is being streamed.
- Agenda slides:
 - <https://links.novalug.org/agenda>
 - brought to you by Typst

We Represent Our Selves

We stream our meetings because there are people in NoVaLUG who cannot be physically present. We attend NoVaLUG as individuals because we are Linux and FOSS enthusiasts.

However, this hasn't stopped certain Internet provocateurs (*cough cough Bryan Lunduke cough cough*) from misstating that we represent our employers, governments, religion, etc...

So unless otherwise stated, **we all represent ourselves and nobody else.**

New Comers

Raise your hand if this is your first NoVaLUG meeting.

Meeting Notes

Please put meeting comments or notes or links to relevant items in the `general` meeting room/channel of our Matrix or Discord servers (they are bridged).

- Matrix: <https://links.novalug.org/matrix>
- Discord: <https://links.novalug.org/discord>

Future Meetings

If you want to know about our future meetings:

- <https://novalug.org/meetings>

Get meeting updates over:

- RSS
- WebCal
- iCal
- Mobilizon
- fedimoose (aka Mastodon)
- or type `!meeting` into Matrix or Discord.

Upcoming Meetings & Presentations

Date	Topic
18 April	Meshtastic
16 May	TBD
20 June	TBD
15 August	TBD

We may opt for coffee/happy hours for summer months.

Call For Presentations

Do you have a Linux or Free/Open Source related topic you want to share?

Presentations can be:

- length: from 15 minutes to 90 minutes
- scope: beginner to advanced (we take it all!)
- polish: any shine of your choice

See one of the organizers after the meeting to volunteer.

Participate in NoVaLUG Between Meetings

- Mailing List: <https://links.novalug.org/list>
- Fedimoose (aka Mastodon). If you don't have a fediverse account, you can create one on our server: <https://links.novalug.org/fedimoose>
- Matrix and Discord (they are bridged):
 - Matrix: <https://links.novalug.org/matrix>
 - Discord: <https://links.novalug.org/discord>
 - WE HAVE BOTS! type **!help**

Jobs

Ghost jobs are a thing.

Help a techie out, post real jobs in #jobs on:

- Matrix: <https://links.novalug.org/matrix>
- Discord: <https://links.novalug.org/discord>

16 May 2026

Northern Virginia Linux Users Group

A large, stylized graphic on the left side of the slide. It features a rocket ship in the center, composed of geometric shapes and glowing with orange and yellow light. The rocket is surrounded by a circular pattern of dots and lines, resembling a circuit board or a data network. The background is a dark blue gradient with a subtle pattern of dots and lines. The text "TECH NEWS" is written in a bold, blue, sans-serif font at the bottom of the graphic.

TECH NEWS

Let's review the latest tech news at
<https://novalug.org/news>

KeyNote:

Cert Warden

Centralized ACME Certificate Management

Presented by Chris Hammel
