

NoVaLUG - 12 September 2026

Meeting Logistics

- We are guests of the library. Please observe their rules.
- This meeting is public, and we might be streaming it.

We Represent Our Selves

We stream our meetings because there are people in NoVaLUG who cannot be physically present. We attend NoVaLUG as individuals because we are Linux and FOSS enthusiasts.

However, this hasn't stopped certain Internet provocateurs (*cough cough Bryan Lunduke cough cough*) from misstating that we represent our employers, governments, religion, etc...

So unless otherwise stated, **we all represent ourselves and nobody else**.

New Comers

Raise your hand if this is your first NoVaLUG meeting.
